Brooks, I separately emailed Ken. I shared the text message conversation and reiterated that EPA wants to meet with James on Monday. I said that if James is not available, we can meet with the Hothi's instead. It is not James' decision to decline a meeting about site safety requested by EPA.

I had a conversation with Brooks we seem to have had an understanding of the miscommunication. Everything has been handle properly I haven't been on their job site except for in the night and morning we discussed this with all of us I don't think it's a need to waste money for lawyers.
